14.8 Privacy, Terms, and Policies

The canonical public policy pages are:

- LightDrive Privacy Policy
- LightDrive Terms of Service

Signed-in users can also open **Settings → Legal** to read the full policy versions and summaries associated with their account, see effective dates and acceptance status, and respond to an acceptance-required update.

LightDrive can publish an optional policy update without interrupting service or a required update with a stated deadline. Failure to complete a required acceptance can restrict service under the account-lifecycle rules.

The public policy pages and the version shown in Legal—not a summary in this manual—control when legal wording differs.
