

2.2 Verifying Your Recovery Email

Recovery-email verification proves that you control the outside address used to recover and protect your LightDrive account.

Verify from the message

1. Open the verification message sent to the recovery address you entered during registration.
2. Select its verification link.
3. Return to the Vault. The verification banner clears after LightDrive confirms the address.

If the message is missing

Check Spam, Junk, Promotions, and any quarantine folder. Confirm the displayed recovery address in the Vault banner. Select **Resend email verification** to issue a new message.

Deadline and restrictions

An unverified account has a 1 MB Vault quota and cannot send LightDrive email. Verification restores the quota and services supplied by the account's plan. LightDrive deletes registrations that are still unverified seven days after creation; the reminder sent after six days includes the deletion date.
